1 Scott's Brasserie

The establishment is traditionally decorated, featuring dark wood booths and rich red furnishings. Intimate booths provide a private dining atmosphere, while seating at the bar area is perfect for those in for a drink to start their evening. We offer a wide selection of dishes, each one inspired by fresh and local cuisine. There's an option for every taste, and our welcoming serving staff would be happy to advise you on our daily specials.

2 Gulliver's Restaurant

Gulliver's restaurant is set back from the hustle and bustle of the main foyer, being part of the original house, it is decorated with cool, neutral tones. Sunlight fills the space, and the minimalist design is designed to promote relaxation in an understated setting. Our dinner menu features dishes created with fresh, seasonal ingredients. Many of these are selected from local suppliers by our expert chefs.

3 Lobby & Lounge Area

The Terrace bar is a welcoming space where you can relax with family, friends or colleagues and enjoy a coffee. In the winter months, a crackling fire warms the lobby while greenery bedecks the halls. In the summertime, grand flower arrangements are scattered throughout the room.

4 Fairy Trail

Newpark Fairy Trail takes you on a magical journey of our scenic grounds, visit the fairy cottages & be sure to look out for the fairies in the tress along the way! Send a letter to the fairies via our fairy letterbox, sit on the wishing chair & be filled with childhood dreams.
